

# PARENT ENROLLMENT QUESTIONNAIRE

We would like to take the time to learn more about your goals and expectations while your child is at CLE. We know that you may not have had a chance to consider all aspects of the questions we are asking, or that your thoughts may change - that is okay. It is important to us to have a sense of your priorities and topics of greatest concern based on the future plans for your young adult. Areas that you have greater uncertainty on are important as well, since they will help us identify ongoing conversation points that will help you in making decisions for the future.
